Subject: 2d Carlsbad, CA Power Plant

I cannot believe your preliminary recommendation is approval of this second power plant in Carlsbad on our beautiful coastline. This is not fair to the city and the people of Carlsbad to blight our coastline with this project. Please disapprove this blight and unnecessary plant unless you make the private company TEAR DOWN the old plant first or immediately after the 2d one is built. BEST SOLUTION would be to move the plant somewhere inland in Carlsbad. Sandra and Len Rogerson, Carlsbad, CA.
